SPECIAL INSTRUCTIONS

All lots are carefully attributed, guaranteed genuine, and grade will be found as noted.

Be sure to enter on bid sheet correct lot number and **BID BY LOT IN ALL CASES**. List prices after each item represent the present value of the lots listed. They are not reserve prices, and you must use your own judgment what you wish to bid.

Unlimited or buy bids will be accepted and carried out as far as possible. Such bids insure your getting the lots desired and always at the lowest possible price. I have many patrons who have always bid in this manner and with perfect satisfaction to all concerned.

The terms of this sale are cash promptly on receipt of goods. Remit in whatever way is most convenient. Successful bidders will be notified immediately after sale and coins shipped at once, if credit references are O.K. There is no charge for executing bids, but postage on shipments is added to invoice. I frequently put invoice in with parcel of coins. If your bids are not successful, you will always receive a post card immediately notifying you of that fact.

If you are bidding for the first time, put references on back of bid sheet. If you have bid at my sales and failed to secure the items desired, write me and I will be glad to look up your sheet and tell you where the trouble is. There is much to learn in making bids at mail auction sales.

You are much more likely to be successful in a strictly mail sale than one where a public auction is held the last day, as any one on the floor can bid a few cents over your mail bid and secure the lot. Often a 10 cent bid will lose the item, where you might have been glad to have it at the increased price. It is always a very good idea to bid what you feel you can afford.

I have already started work on my next auction the first of the new year. If you have fine material you wish to dispose of I would like to hear from you at once. Tell me approximately what you have and whether you wish to dispose of it for cash or put in my auction.

The owners of about half of the lots in this auction have already tried my service and like it. They like the way coins are listed, the prices obtained, and prompt remittances, always. They also feel they are saving real money, with no work on their part whatever.

In a number of instances it has been shown and proven conclusively, they received 20% more than any dealer would pay for the material, which surely is worth saving and put in war bonds. Whether you have ten rare coins or ten thousand, my service is ready for you.

COLLECTION FROM CALIFORNIA

This is one of the most beautiful lot of coins that has ever been sent to me to sell. The Indian Heads, bronze portion, is the most perfect matched red proof set I have ever seen except the 1909s which is a yellowish-silver. The Half Dimes are more complete than is usually seen and simply superb throughout. Nickels and others the same. I hope there are some other collections in the great state of California which will gravitate in my direction occasionally, as it is a pleasure to offer my patrons something unusual. I predict these coins will bring record prices.

SMALL CENTS

All are Brilliant red matched Proofs and it is quite unnecessary to repeat the fact after each item.

LINCOLN PENNIES

A set of these popular coins in brilliant Unc red condition usually as bright as come from the mint. Considering how quickly these coins get brown, it is most remarkable to find a set in the condition that these are. Many of them are very difficult to obtain now in bright red condition.

HALF DIMES

The finest set that has ever been sent to me to sell, containing many of the early dates in fine condition, the series up to 1859 in Brilliant Unc and balance in Brilliant Proofs. Here is an unusual opportunity to secure the dates you wish. I shall not be surprised to see unlimited bids on many of them, as they are so very hard to obtain.

1794	1794	First date would be fine but for small dents back of eye which show under glass, one at base of y, one on neck, but as the coin has been in circulation as most all are that come on the market, these dents hardly show. Easily a \$20 coin.	1827	1842	Unc \$1.50.

(With our Philadelphia mint running full blast making medals for our armed forces all over the world what could be more appropriate at this time than to add a few medals to the collection, where such superb specimens can be had at most modest prices. Look any of these up in the catalogues of 20 years ago especially in London lists and see what they sold for. There is no question that Medals are coming back and you will see them selling much higher in 1944.)

Numismatic Chatter

While at the Numismatic meet at Chicago recently, I secured a very choice collection of 250 pieces of Foreign and U. S. A. Gold, part of which is listed herein in the front of the book. I was sorry not to meet all of the collectors in attendance, but I had to spend much of my time at the Field Museum of Natural History. I had a large exhibit in the Anthropological Building and Florida State building at the old World's Fair in 1893 and as the Field Museum was celebrating their 50th anniversary I just had to be there part of the time. My greatest thrill was seeing my private collection of the Land and Fresh Water Shells of the World. I sent them in 1941 all in mammoth steel cases 9 feet high with a hundred massive drawers in each and front of each cabinet marked as my collection. It will be used for research in centuries to come.

In this sale besides the Gold above mentioned you will find about 240 Foreign crowns and a lot of Ancient Greek silver from Ohio collection, many hundred proof coins of U. S. A., including some real rarities and they are indeed as fine a lot of brilliant specimens as ever offered. On the final day of closing type matter for printer a nice collection of Half Cents came in, a Confederate Half Dollar and a rare 1796 Half Dollar. I suspect if you have a real interest in coins you can spend an evening or two looking over the list. If you know of some advanced collector who might like the book, I will appreciate the name, for while I have hundreds of OLD TIMERS on my mailing list there are many I do not know as yet personally.

My next sale will be early in 1944 and if the people send me the material they have been writing about, it will be a good one. If you have duplicates, complete series, or entire collection of choice material, write me at once about it. I do not wish in future to list much material that has only a nominal value. If your coins are of the grade listed in the 1944 Standard Catalogue I will gladly list them. Grades not priced in this book I do not wish.

Remember I only charge 10 per cent on Gold, Uncirculated and Proof coins, and any real rare items. There is no charge if coins are unsold.

I wish to thank the many collectors who have given me some of their patronage the past year. Let us hope the coming year will see at least part of the World War ended up, so that our relatives and friends may be back home. Many of my patrons are in the armed services and write they hope to receive catalogues again when they return. I try to answer all friendly letters from patrons who are sending me bid sheets, but if one is overlooked, just jog up the old man. Nufsed.
